Commissioner for Patents
Mail Stop: Filing Receipt Corrections
P.O. Box 1450
Alexandria, Virginia 22313-1450

REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT AND CHANGE OF ENTITY STATUS

Attached is a marked-up copy of the official Filing Receipt received from the Patent and Trademark Office in the above application for which issuance of a corrected filing receipt is respectfully requested.

The entity status is incorrect. Applicant's entity status is large.

Enclosed are copies of the Transmittal Letter to the U.S. Designated/Elected Office and of the Credit Card Form PTO-2038 showing the large entity filing fee payment dated January 14, 2005.

Additionally, Applicant encloses herewith a copy of the Response to Missing Requirements dated August 29, 2005 wherein Applicant requested correction of the entity status.

08/08/2006 10:51 8606765018 OTIS ELEVATOR WHQ PAGE 03/11

In the Response to Missing Requirements Applicant indicated that there was no paperwork submitted with the filing of the U.S. national stage that would classify Applicant as a small entity and an adjustment of the office records to show Applicant as a large entity status was requested.

In view of the above comments, Applicant again requests that the Office records be corrected to show Applicant as a large entity and that a corrected filing receipt be issued for the present application.

Applicant does not believe any fees are required with the filing of this request.

Should the Examiner require any additional information with regards to the present application, Applicant respectfully requests the Examiner contact Applicant's Attorney at the below listed number.

Respectfully submitted, Shusaku Shibasaki

Title:

CONICAL SPRING BUFFER FOR AN ELEVATOR

RESPONSE TO MISSING REQUIREMENTS UNDER 35 U.S.C. 371

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sirs:

In response to the Notification of Missing Requirements, which was mailed August 9, 2005, Applicant submits that the Declaration submitted with the U.S. national stage application is proper.

When Applicant entered the U.S. national stage, Applicant placed a copy of the Declaration that had been filed with the original international application with the U.S. national stage application papers in order to assist the patent office. Applicant submitted the Declaration with the original filing of the international application pursuant to PCT Rule 4.17(iv). Under 37 CFR 1.497, the rule provides that only if a declaration was not submitted under PCT Rule 4.17(iv) (at the international stage), the patent office may then require the Applicant to submit a declaration. Thus, because Applicant submitted the Declaration with the international application, the patent office shall not require any additional declarations. In 08/08/2006 10:51 8506765018 OTIS ELEVATOR WHQ PAGE 11/11

addition, because the Declaration was submitted with the original international filing,
Applicant did not know the international application number when the Declaration was
submitted. Thus, the Declaration was proper when it was submitted with the filing of the
international application. Accordingly, Applicant hereby submits that the Declaration as
submitted with the U.S. national stage is proper and respectfully requests that the patent office
withdraw the objection to the Declaration.

In addition, the patent office also stated that an Indication of Small Entity Status had been submitted with the filing of the U.S. national stage. Applicant submits that there was no paperwork submitted with the filing of the U.S. national stage that indicated that Applicant was a small entity. Applicant is not a small entity. Applicant is a large entity. Accordingly, Applicant respectfully requests that the patent office adjust its records in that regard.

In order to assist the patent office Applicant submits herewith another copy of the Declaration, which was filed with the original international application. Applicant respectfully requests that the patent office accept this Declaration.

Respectfully submitted,

Lisa A. Bongiovi

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process simplifies the filing of patent applications on the same invention in member countries, but does not result in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the

national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
